

External Hinged Connector Interfaces (Delphi Series)

Description

Single junction straight and 90° elbow fittings providing high integrity connections between Delphi series connectors or Junior Timer connectors and Harnessflex conduit systems.

These fittings are designed to snap together over all types of slit and unslit conduit thus maintaining maximum conduit bore.

In addition 90° elbow versions allow the conduit to swivel 360° around the connector housing, sufficient to avoid the problems associated with one-piece interfaces of overflexing due to movement or vibration.

Configurations and Dimensions

External Straight Connector Interface

External 90° Elbow Connector Interface

Straight Interface

Part No.	Conduit Size		Connector Type	Nominal Dimensions			
	(NC)	(NW)		A	B	C	D
